

LAB Experiment: 2

-J.S.R JAYANTH

-19BCE7170

Q1)Install a software silently

Sol:-

```
Command Prompt
C:\Users\jammu>msiexec.exe /i readerdc_en_ka_cre_install.exe /qn/norstart
C:\Users\jammu>
```

Q2)Who has the highest privilege in a machine/OS?

Sol:-

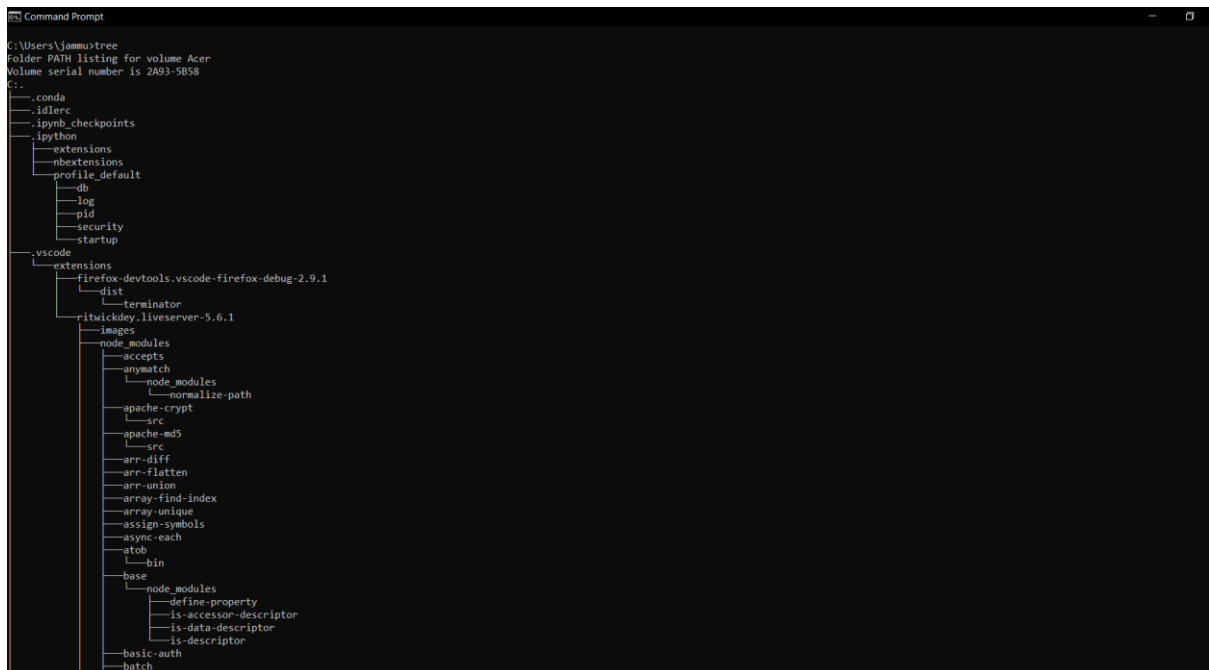

In an OS/machine the SYSTEM directory has the highest privilege, higher than the system administrator.

```
Command Prompt
C:\Users\jammu>whoami
predator\jammu
C:\Users\jammu>net user
User accounts for \\PREDATOR
-----
Administrator          DefaultAccount          Guest
jammu                   WDAGUtilityAccount
The command completed successfully.
C:\Users\jammu>
```

Q3)What is the structure of your file system?

Sol:-

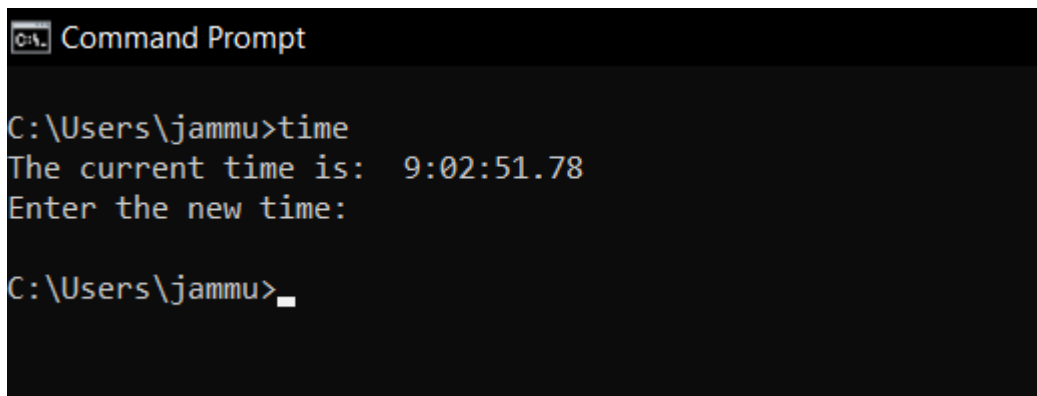

Files are stored in a hierarchical tree structure.

```
C:\Users\jammu>tree
Folder PATH listing for volume Acer
Volume serial number is 2A93-5B58
